

Integrated Skills (UK) Ltd to Exhibit at IFAT, Munich, Germany May 14 – 19, 2018

Integrated Skills (UK) Ltd (ISL) is pleased to announce that, for a second time, it will be exhibiting at IFAT, Munich.

IFAT is Europe's leading industry event for the environmental sector attracting thousands of professionals from all over Europe, Africa and the Middle East.

Alan Paget, ISL's Sales & Marketing Director, states "We sell, develop and support a range of software and related mobile solutions for use by municipalities and their contractors, specifically in the environmental sector. IFAT is an excellent opportunity for the company to reach new prospects, as well as existing clients. IFAT also enables ISL business and technology partners to meet, and update the ISL client community on recent developments".

ISL sells a range of software solutions in this sector, all of which will be on show at IFAT:

- RouteSmart for ArcGIS
- Routing-as-a-Service
- Bin2Day
- Performance Manager
- Fusion
- Navigator
- Survey Apps

RouteSmart is the market leading software for route optimisation in the environmental sector applied to numerous services including waste/recycling collections, winter maintenance, street cleansing and gully emptying.

Also on show will be Bin2Day, a smartphone app that makes it easier for residents to manage their waste & recycling collections. The smartphone app enables residents to:

- Set alerts to remember when to put the bin out (and which one)
- Review what items go into which bin
- View a collection calendar

With Bin2Day municipalities can:

- Notify residents of changes to collection days
- Send reminders of paid-for collections (bulky, garden, clinical, etc.)
- Engage directly with residents when introducing new services, such as food waste collection
- Notify residents if there is a delay to the service
- Inform residents of recycling targets met

Performance Manager is a contract (and contractor) management system deployed by both public and private sector organisations involved in any aspect of environmental service management. Combining Business Process Management, GIS and mobile technologies, Performance Manager enables organisations to efficiently manager, monitor and report on all jobs/tasks in real time.

About Integrated Skills Limited

Integrated Skills (UK) Limited (www.ukisl.com) operating out of Romsey near Southampton, is a specialist provider of GIS routing and optimisation software, smartphone & tablet solutions, environmental management software, highways management software as well as environmental consultancy.

ISL's smartphone & tablet apps enables users to collate and disseminate data related to services in three core sectors: Environment, Highways, Parcel & Post and Utilities.

ISL's routing and optimisation software solutions maximise efficiency through enhanced route planning resulting in reductions in fleet size, mileage, planning time and human resource, more balanced routes/rounds, more accurate ETAs and enhanced route management information. The software is used in operational and strategic environments as well as for scenario planning when introducing new customers, vehicles, routes and services.

The company also provides the GIS based Trafficworx & Highwayworx solution for the management & coordination of road work activities.

ISL is the leading partner of RouteSmart Technologies Inc.™ (www.routesmart.com) for high density, door-by-door and street-by-street route optimisation software

ISL is a partner of ESRI for the ArcGIS platform (www.esri.com).

ISL is an Ordnance Survey partner (www.ordnancesurvey.co.uk).

For further information contact Alan Paget, Sales & Marketing Director at ISL.
